How Do You Use A Box Plan Hang it up in the bird room

The box plan is only for a quick visual look help at a glance, you can see what each nest box is doing with out having to look at each breeding card on all the nest boxes.

All you need is three coloured highlighter pens. Use one colour to highlight the word (eggs), another colour to highlight the word (chicks), and another colour to highlight the word (all rung)

You will have to write in the start to ring date.

With all the colours appearing on the planer you can see very quickly how has got so you don't have to open nest boxes every day.
